1. High Level Goals

Where are you now, and what do you wish to achieve? Conduct a high level goal review of your business and determine what is holding you back.

2. Success Factors

Determine the success factors of your business and lock in your key strategic goals to achieve success. How do you stand out from the crowd?

3. Strategy & Milestones

Review your overall strategic direction and business plan. Examine each success factor and develop key strategies and action plans to achieve these goals.

4. Monthly Review

Regularly review your business performance levels, make adjustments and fine tune the strategy and the execution plans where necessary.

5. Systems & Workflow

Tidy-up your business and develop the systems and workflow to help execute your strategy. Build a business that can be scaled, replicated and leveraged.

6. Employee Engagement

Align your employee's goals and targets with the company and set in play a system to motivate and engage employees through consistent communication and accountability systems.

7. Culture & Sustainability

Ensure the long-term success of your business through continual top-level support and continual reinforcement. Involves the continuation, encouragement and reinforcement of both culture and systems.
